

Pogoplug Wireless Extender Quick Start Guide

Step1. If you have not already done so, follow the instructions for setting up your Pogoplug using your router. Please see the “Pogoplug Quick Start Guide” that came with your Pogoplug.

Step2. Now that your Pogoplug is set up, attach your Pogoplug Wireless Extender to any available USB port on your Pogoplug. We recommend connecting it to the USB port on the front of your Pogoplug.

Step3. Sign in to your Pogoplug account at my.pogoplug.com. Click on the Settings button and then click on the Wireless button in the left pane. Follow the instructions in this screen to select an available wireless network, and to enter a password if required.

Step4. Disconnect the Ethernet cable from your Pogoplug.

Congratulations! You have now completed the setup of your Pogoplug are free to move your Pogoplug to anywhere in your home. Please remember to use the web UI to safely eject your hard drives before you unplug the power to your Pogoplug.

Federal Communication Commission Interference Statement

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

FCC Caution: Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate this equipment.

IMPORTANT NOTE:

FCC Radiation Exposure Statement:

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. End users must follow the specific operating instructions for satisfying RF exposure compliance.

This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.

IEEE 802.11b or 802.11g operation of this product in the U.S.A. is firmware-limited to channels 1 through 11.

This equipment has been SAR-evaluated for use in **laptops (notebooks)** with side slot configuration.
